of Community Centres when some patients left LC Hospital they were put into houses with Community workers to help them get about like shop for clothes, foods and things for their places they live in. I myself Marie Christie has a worker called Pauline Reevy who comes to take me out for a while to Asda in Bearden for our coffee and a chat. Sometimes my other worker comes to see me as well her name is Maria McDonald. When Pauline is on holiday at Tenerife for a week as my nerves get a bit bad and uptight with my husband Willie having a fight or arguing and need help at time with the Community worker like Pauline and Maria McDonald her phone no is 0141 342-3000. If something gets me worried or upset you just ask for Maria or Pauline to speak to on the phone in their office. They were nurses in the Castle as well but now are community workers that take folk out in their cars for a while then bring them back home to their houses and drop them off.
